Hello,

I am writing to express my keen interest in joining your company in a Computer Science-related role. With a strong passion for technology and a demonstrated track record of self-taught skills in website development, C++, and Unreal Engine, I am excited about the prospect of contributing my expertise to your esteemed organization.

Having learned HTML and CSS through self-guided learning from YouTube videos, I built my own portfolio website: https://maximbabadzhan.com, showcasing a collection of my recent projects. The website reflects my commitment to continuous learning and creativity in the field of web development.

My proficiency extends to programming languages as well. Self-teaching C++, I have successfully developed games like 'Lucky Stars' (https://github.com/maxim412/luckystars) and 'Ignition' (https://github.com/maxim412/Ignition). Additionally, my experience with Unreal Engine 5 includes creating a shooter game (https://www.youtube.com/watch?v=CTJEVJyUhLo&t=709s), a zombie FPS game (https://www.youtube.com/watch?v=NpsijBp76yo), and a platformer called 'Make the Jump' (https://www.youtube.com/watch?v=jDMx3RRN_F0).

My educational background includes an Associates Degree in Computer Science from Gateway Community College, where I gained proficiency in C++, HTML & CSS, SQL, Python, and Java. Furthering my education at Western Governor's University, I acquired knowledge in SQL, Java Spring Frameworks, HTML & CSS, and Calculus, further enhancing my skill set.

Equipped with proficiency in HTML, CSS, Java, Python, C++, SQL, and Unreal Engine 4/5, I bring a diverse range of technical abilities to your organization. Moreover, my experience working in various blue-collar positions such as Wendy's, Shoprite, Dollar Tree, Marshalls, Stop & Shop, Ocean State Job Lot, and Adam's Supermarket has instilled in me a strong work ethic, adaptability, and effective communication skills.

In my pursuit of a remote computer role, I am excited about the opportunity to leverage my technical skills and experiences to contribute to the success of [Company Name]. I am confident that my dedication, self-motivation, and ability to learn quickly make me a promising candidate.

Thank you for considering my application. I am eager to discuss how I can bring value to your team. You can reach me at [203-828-0628] or [vlxedits412@gmail.com]. I look forward to the possibility of joining your team and contributing to the company's growth and success.

Sincerely,

Maxim Babadzhan
